EDUCATION

PhD - Computer Science
Victoria University of Wellington 2025 - Present

MBA – Finance
Bangladesh University of Professionals
CGPA: 3.84 | 2021

M.Sc. Engg. - EEE
American International University
Bangladesh
CGPA: 3.81 | 2018

B.Sc. - EEE
American International University
Bangladesh
CGPA: 3.65 | 2016

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate
- ISO/IEC 27001 Lead Auditor -PECB
- ISO/IEC 27001:2022 Lead Implementer
- CEH (Master) – EC-Council
- Certified SOC Analyst – EC- Council
- C)PTE – Mile2
- RHCSA – Red Hat
- CRPO – EU Cyber Academy
- CNSP – The SECOPS Group
- APISEC Certified Practitioner
- Oracle Cloud Infrastructure Foundations
- ISO/IEC 20000 ITSM Associate

TECHNICAL SKILLS

- Proficient: IBM QRadar - Splunk - LogRhythm - Wazuh/ELK - Swimlane SOAR - Qualys - Nessus - Burp Suite - OWASP ZAP - CrowdStrike - Trellix - Palo Alto NGFW - Fortinet ESGW - Zscaler Honeypot - Mandiant - Cyble - MobSF - Forcepoint DLP - OpenVAS - Acunetix - HCL AppScan – AWS - Azure
- Familiar: Python - C/C++ - VMware ESXi - CARLA Simulator

ACHIEVEMENTS

- Wellington Doctoral Scholarship
- ISACA Digital Trust Scholarship
- Cum Laude Award
- Dean's Award
- 4th Place - Smart EV Project (165 groups)

LANGUAGES

English — Professional
Bangla — Native

AFFILIATIONS

- IEEE NZ Central Section
- IEEE VTS & ITSS Member
- IEEE Young Professionals

Md. Ibnul Bin Kader Arnub

Cybersecurity & Research Candidate | PhD Student | Wellington, NZ

CAREER OBJECTIVE

I am a PhD student in Computer Science at Victoria University of Wellington with a background in cybersecurity operations, threat intelligence, risk assessment, and compliance. My goal is to transition into New Zealand's technology sector and build strong local industry experience while continuing to develop my skills in security operations, cloud security, detection engineering, and applied cybersecurity research. Through my PhD work on adversarial attack in IDS, together with my previous cybersecurity experience in banking, I aim to contribute practical security knowledge, analytical thinking, and a strong willingness to learn New Zealand industry practices, technologies, and ways of working.

KEY SKILLS & EVIDENCE

The following experience reflects my transferable cybersecurity foundation, which I am now looking to apply while building local industry experience in New Zealand's technology sector.

Security Operations & Incident Response: Experience in SOC monitoring, incident triage, SIEM/SOAR workflows, IDS/IPS, honeypot platforms, and detection rule tuning to improve alert quality and response processes.

Threat Intelligence & Vulnerability Management: Worked with threat intelligence, Dark Web monitoring, exposed credential identification, vulnerability assessment, and remediation tracking in banking environments.

Risk Assessment & Compliance: Conducted IT risk assessments and supported ISO/IEC 27001 and PCI DSS activities, including evidence collection, control validation, audit support, and corrective action tracking.

Security Research & Detection Engineering: Currently researching intrusion detection and prevention systems for autonomous vehicles using CARLA, machine learning, and sensor fusion techniques.

Communication & Reporting: Prepared security reports, risk summaries, compliance documentation, and technical findings for management, audit, and technical audiences.

PROFESSIONAL EXPERIENCE

BRAC Bank PLC | Feb 2025 - Aug 2025

Associate Manager - Cyber Threat Intelligence & SOC

- Delivered 24x7 Level 2 SOC monitoring, incident investigation, and root cause analysis across SIEM, SOAR, XDR, and honeypot platforms.
- Developed new detection use cases and improved alert quality, directly reducing analyst workload through better correlation logic.
- Conducted threat hunting and proactive vulnerability analysis; supported ISO/IEC 27001 compliance and audit evidence activities.

Islami Bank Bangladesh PLC | Dec 2019 - Feb 2025

Officer - Information & Risk Management Division

- Conducted enterprise IT risk assessments across 141+ applications, systems, and servers; produced management-level reports and tracked remediation.
- Supported ISO/IEC 27001 and PCI DSS audits, third-party audits, PwC, Bangladesh Bank coordinating evidence, validating controls, and drafting audit responses.
- Performed VAPT of web applications, mobile applications, and network infrastructure; documented findings and tracked corrective actions.
- Implemented IBM QRadar SIEM for enterprise monitoring; led ISO/IEC 27001 policy alignment and PCI DSS compliance initiatives.
- Monitored Dark Web exposure and threat intelligence sources to support proactive risk identification across the enterprise.

Suprov Spinning Limited | Jun 2017 - Mar 2019

Assistant Engineer & IT Officer

- Provided IT support across hardware, software, and network systems; produced inventory and usage reports for management.
